BARD Research Grants Guidelines and Regulations for Grant Management (Annex A)

The approval and initiation of a BARD research grant agreement obligates the scientists and institutions involved to carry out periodic administrative reports, as detailed in the following Guidelines and Regulations for Grant Management.

Grant Agreement

An authorized research officer of the principal investigator's affiliated institution signs the research Grant Agreement between BARD and the institution.

Parties to the Agreement

Investigators

- ***Principal Investigator (PI)*** is the person whose name appears *first* on the cover page of the proposal. The PI is responsible for the submission of scientific reports, administration of the grant, notification of changes in the work plan and maintaining contact with BARD.
- ***Co-Principal Investigator (Co-PI)*** is the person whose name appears *second* on the cover page of the proposal. The Co-PI is the senior member of the investigating team in the *other* country.
- ***Collaborating Investigators*** are all other investigators, in either country, who are listed on the cover page of the proposal.

Institutions

Each participating institution accepts responsibility for supervision of that portion of the project to be carried out by its affiliated investigator/s.

- ***Principal Institution*** is the affiliated institution of the PI. An authorized research officer of the principal institution signs the research Grant Agreement with BARD.
- ***Cooperating Institution*** is the affiliated institution/s of all other members of the team of investigators (Co-PIs and Collaborating Investigators). Each funded cooperating institution signs a separate Letter of Agreement with BARD and undertakes to abide by the relevant terms of the research Grant Agreement.

Initiation of the Research Grant

Following notification of the award and approval of the Amended Budget Summary (see section below), an Agreement is sent for signature to the Principal Institution followed by Letter/s of Agreement to the funded Cooperating Institutions. A letter indicating the agreed single Start Date of the project is then sent to all affiliated investigators and research authorities of all funded Cooperating Institutions.

Amended Budget Summary

(Appendix G1a & G1b, attached or on the web-site)

Following notification of the award, and prior to the preparation of the Agreement, the PI, in consultation with the Co-PI, the cooperating investigator(s) and their respective research authorities will prepare an Amended Budget Summary in accordance with the actual award amount. The amended budget is to be presented in the format provided in Appendix G1a, and forwarded to the BARD office within 30 days of receipt of the letter of award. Please also indicate the Start Date on this Appendix. Appendix G1b is to be provided if there is more than one institution per country.

BARD Research Grants

Guidelines and Regulations for Grant Management (Annex A)

- **First Year's Budget Allocation** may not exceed **36%** of the total budget unless advance approval is received from BARD. (Excluding projects of less than 3 years duration).
- **Budget Items** Each year's total budget should be rounded to the **nearest \$1000**.
- **Overhead** may not exceed 20%. Therefore, in order to get the yearly totals to add up to the total approved budget, we suggest rounding the operating expense budget, the overhead budget or both to the **nearest 10**.
- **Personnel Services/Salaries** including salaries and fringe benefits. PIs, Co-PIs and Collaborating Investigators are not entitled to receive salaries from the BARD grant. Support personnel can receive salaries and social benefits in proportion to the time devoted to the research project except those who are tenured employees at the recipient institution.
- **Non-expendable Equipment** BARD allows the purchase of specific items of equipment to be used in the supported research and without which the research project cannot be conducted. Large capital expenditures are not included in BARD's obligations to recipients.
- **Operating Expenses** Include in-country travel, computer services and supplies.
- **Foreign Travel** BARD allows one trip to each country per project (two trips only). Each trip abroad should not exceed thirty days. The amount requested for foreign travel should cover the cost of the ticket (round-trip/coach) and *per diem* expenses. **In one-year feasibility studies, only one overseas trip is allowed.**

Completion of the Research Project

Completion of the project is dependent upon approval by BARD of the project's final scientific report and the final fiscal report of each funded institution. The final scientific report must be presented to BARD by the PI and must include a summary of the scientific activities of the PI, Co-PI and all other collaborating investigators. The report is due within three months of the conclusion of the project. The Executive Director notifies all participants in writing upon completion of the agreement. Title to equipment purchased with BARD funds vests in the institution wherein the research was conducted upon successful completion of the project.

The Research Plan

- **Approved Research Proposal** A Research Proposal as approved by BARD becomes an integral part of the Research Grant Agreement.
- **Adherence to the Original Work Plan** Investigators are free to pursue interesting and important leads that arise in the progress of the research. When it appears that the originally approved research is no longer productive, or that a related line of research is more promising, the investigator may discontinue or modify the original direction of the research following consultation with BARD. Investigators must give immediate written notice of substantial changes in the work plan. Describe the changes and explain their necessity. BARD reserves the right to disapprove such alterations of the original plan.
- **Changes of Investigators** BARD must approve, in writing, any changes in the team of investigators. Requests for a change in the research team must include the formal written confirmation by the new investigator to undertake the responsibilities assigned in the research project, a brief C.V., a list of recent relevant publications and the

BARD Research Grants Guidelines and Regulations for Grant Management (Annex A)

signature page (Appendix G2a/b) signed by the new investigator and the affiliated institution's authorizing official.

- **Changes in Institutional Affiliation** BARD will consider transfer of the grant to a new institution or to a new investigator within the original institution on an individual basis. Notify BARD immediately and in writing of any planned changes in affiliation so that appropriate measures may be taken to ensure continued operation of the project. Include Appendix G2a/b in this notification. Once notification of the intended changes has been made, neither the investigator nor the institution may make further use of the grant's funds until such time as the arrangement for transfer of institution or investigator has been agreed upon with BARD and a new agreement signed.
- **Temporary Absence of Investigator** When a PI or Co-PI expects to be absent for a period longer than three months, s/he must notify BARD Israel and, if unable to continue to supervise the project, must recommend a temporary replacement for BARD's approval. The suggested replacement must send BARD a brief C.V., a list of recent relevant publications and a written statement confirming his/her willingness to undertake the responsibilities assigned in the project.
- **Withdrawal of an Investigator** If an investigator withdraws from a project, or can no longer perform his/her assigned tasks, the affiliated institution may recommend a replacement candidate for BARD's approval. Candidates must provide a written confirmation of their acceptance of the terms of the research agreement and include a brief C.V. and list of recent relevant publications. BARD reserves the right to appoint a replacement investigator from a *different* institution and to transfer funds accordingly, in the event that a suitable investigator is not found in the original institution. Include Appendix G2a/b in this notification.

PIs, Co-PIs and Collaborators should keep each other informed regarding any such changes in the research.

Feasibility Studies

One year feasibility studies, whether submitted as such or originally submitted as a three year grant, should be initiated as early as possible following the award notification, and are subject to the same scientific and fiscal management guidelines, as regular BARD grants.

- Continuation of a one year feasibility study *originally submitted as such* requires the submission of a *new* proposal for evaluation that will be accepted only after the final scientific report of this study is received and approved by BARD.
- Continuation of a one year feasibility study *originally submitted as a three years proposal*: Should the recipients be able to submit to BARD *an interim* scientific report by March 1 of the year following the initiation of the feasibility study that will prove their achieving the conditions of the award, BARD will take steps to evaluate the report and if positively confirmed by evaluators, TAC and the Board of Directors will extend the project to its 2nd year. This will not affect the recipients' eligibility to submit a full proposal for continuation of this project in September of the year following the original award, provided a final scientific report covering the first year of the feasibility study is submitted and approved by BARD prior to the submission deadline.

BARD Research Grants Guidelines and Regulations for Grant Management (Annex A)

Fiscal Administration of the Grant

Grant recipients must keep a separate bookkeeping account with a complete record of all expenditures relating to the research project. Keep records for two years after the completion of the research project or as otherwise agreed upon with BARD. BARD reserves the right to examine all books, documents, records and accounts relating to the research project at any time throughout the duration of the agreement and for two years immediately thereafter. BARD also reserves the right to inspect the research locations and to obtain from the research team full information regarding all project activities.

- **Timing of Expenditures** BARD will not recognize expenses relating to the periods either before the official start date or after the termination date of the project, unless prior approval has been received by BARD.
- **Documentation** Original invoices for non-expendable equipment over \$1,000 must be stamped "Funded by BARD grant # _____."
- **Foreign Travel Expenses** BARD's policy allows for one trip per country (round-trip/coach). Each trip abroad should not exceed thirty days. When approving a foreign travel expense for a BARD grant, the institution should verify that the purpose of the trip is for the investigators to meet (a copy of the itinerary of the trip should be filed for future reference). Prior approval must be obtained by BARD if either the trip is for a different purpose, or if someone other than the PI or Co-PI will be traveling.

Semi-annual Declaration

(Appendix G3, attached or on the website). This declaration states that the research is being carried out according to the approved research plan. Each funded institution must submit the declaration six months after the beginning of each research year.

Annual Fiscal Reports

(Appendix G4a, attached or on the website). The annual fiscal report is a comprehensive summary of all monetary operations conducted in the framework of the project. BARD emphasizes the importance of properly categorizing expenses and reporting them correctly to the appropriate budget item in the form. Each funded institution is responsible for the preparation and timely submission of fiscal reports, i.e. at the end of each research year simultaneously with the annual scientific report. Failure to submit any of these reports on a timely basis delays the processing of payments to all funded institutions. Mail the original, signed report to the BARD office.

The List of Personnel

(Appendix G4b) includes details of the personnel funded by the BARD grant. Please complete the form as requested in order to avoid delays of payments. The form must be signed by the PI or Co-PI (as relevant) and is to be submitted together with the annual fiscal report. All items relating to personnel cost, including travel and social benefits, must be recorded in the fiscal report under 'salaries' and not under 'operating expenses'.

Third and Final Fiscal Report

The third fiscal report is assumed to be the final fiscal report, unless otherwise indicated by the submitting institution. In the event that additional expenditures are incurred after the third fiscal report is submitted, then a final report must also be submitted.

BARD Research Grants Guidelines and Regulations for Grant Management (Annex A)

Schedule of Payments

Payments are made directly to each funded institution in accordance with the Schedule of Payments (below). Continued payment, according to the Schedule, must be justified by reported expenditures in the annual fiscal reports.

	First Year	Second Year	Third Year
1 st payment	40%	30%	30%
2 nd payment	30%	40%	30%
3 rd payment	30%	30%	40%

- The **first payment of the first grant year** is made following BARD's receipt of the signed research grant agreement, but not earlier than six weeks prior to the start date.
- The **first payment of subsequent grant years** may be paid with the third payment of the preceding year, if justified by the reported expenditures.
- The **second payment of each grant year** is made following BARD's receipt of the semi-annual declaration, which is due in the middle of each year.
- The **third payment of each grant year** is made following receipt and approval of the annual scientific and fiscal reports.
- The **final payment of the grant** is made following BARD's receipt and approval of the final scientific and the third or final fiscal reports. Total payments cannot exceed the total approved expenditures.

Final Statement of Payments and Expenditures

BARD issues a Final Statement of Payments and Expenditures, signed by the BARD Controller, for each funded institution. The Final Statement is presented to the institution together with the final payment. The Institution should review this final statement, sign and return the original to BARD. Whether or not the statement is returned with the authorizing institutional signature, BARD will consider it binding three months after the date of issue.

Unused Budget Balances

BARD funds are expected to be used in a timely manner. In the course of the research, unused budget balances in years 1 and 2 may be transferred to the following year, but any substantial changes in the use of the allocated budget must be authorized in advance by BARD. Unexpended balances at the completion of the project shall be refunded to BARD without delay.

Budget Changes

Budget changes up to a total of \$5,000 during the progress of the research can be made without prior approval from BARD, except those relating to foreign travel. All changes relating to the foreign travel budget item must receive prior approval from BARD and are not included in this initial \$5,000 limit.

Changes beyond the initial \$5,000 require a written (e-mail) request justifying the changes. BARD may also require the affiliated institution(s) to approve the requested change. Changes will be approved without delay, if justified and within the framework of the approved budget and reported expenditures.

BARD Research Grants Guidelines and Regulations for Grant Management (Annex A)

Scientific Administration of the Grant

The PI is responsible for submitting both the annual scientific reports and the final scientific report to BARD.

Online Submission of Scientific Reports

Reports are to be submitted online. The PI will receive an e-mail from BARD, close to the due date of the report, with instructions and credentials to access the web-site. Each item is to be entered separately as a PDF document.

Annual Scientific Progress Reports

These brief (2-5 pages) reports, in English (no abbreviations allowed) should evaluate the work done on the project in both the United States and Israel during the previous twelve months. Annual scientific reports should be submitted simultaneously with the annual fiscal reports. Approval of the annual scientific report is dependent upon the submission of the annual fiscal reports.

Include the following items in the annual report:

- **Evaluation of the research achievements** as related to the original research proposal and objectives
- **Description of the cooperation**
- **Changes in direction** from that in the original proposal, if any. (See also "Adherence to the Original Work Plan", page 2)
- **List of publications**

Final Scientific Report

A comprehensive scientific report is to be submitted by the PI within three months of the conclusion of the project. The final report is a presentation and assessment of the achievements of the project. It is used to establish accountability both inside BARD and in its external relations and might influence future funding policy. Thus, it is important that the relevant information is presented in an accessible form that facilitates fair and comprehensive review. The final scientific report should be submitted simultaneously with the final fiscal report and its approval is dependent upon the submission of the final fiscal reports of all funded institutions.

The reports are distributed to the US National Agricultural Library (Beltsville MD), the library of the Faculty of Agriculture, The Hebrew University of Jerusalem (Rehovot) and the library of the Agriculture Research Organization (Bet Dagan). Upon request, copies of BARD final scientific reports are available to the public from the BARD office.

A PDF reprint of each published paper resulting from the project is to be uploaded to the BARD reporting site. BARD should be acknowledged for support in published papers. Use the following format:

BARD Research Grants
Guidelines and Regulations for Grant Management (Annex A)

***This research was supported by Research Grant Award No. _____
from BARD, The United States - Israel Binational Agricultural Research and
Development Fund***

There are two sections to the Final Scientific Report:

1. Overall summary and statistics

Abstract (one page maximum, single spaced)

- ✓ List the original objectives, as defined in the approved proposal, and any revisions made at the beginning or during the course of project.
- ✓ Background to the topic.
- ✓ Major conclusions, solutions, achievements.
- ✓ Implications, both scientific and agricultural.

Achievements (three pages maximum, 1.5 spaced, font not smaller than 12), include:

- ✓ Significance of main scientific achievements or innovations.
- ✓ Agricultural and/or economic impacts of the research findings, if known.

Contribution of the collaboration: whether and how project objectives were promoted as a result of the cooperation.

List of Publications: Include only reviewed publications reporting on work at least partially supported by BARD and which includes an acknowledgement to BARD.

2. Appendix (technical information supporting the research findings). Provide a table of contents and include the following:

- ✓ Published papers
- ✓ Unpublished data briefly summarized
- ✓ Other relevant material may be included (1.5 space, font not smaller than 12)

Patents and Copyrights

The objective of BARD's patent policy is to ensure the protection of patentable findings resulting from research supported by BARD and to promote their utilization and commercialization for the benefit of society.

Definitions as used in this provision:

- **"patent"** includes conventional patents, design patents, plant variety certificates and other equivalent forms of protection
- **"governmental purposes"** does not encompass the commercial manufacture, preparation, production, marketing, distribution or sale of goods or services within the scope of patent or patents in question
- **"recipient"** means principal and cooperating institutions, contractors and any tier thereunder, or any transferee of recipient's rights in patents arising out of BARD funding
- **"invention"** means any invention or discovery, which is or may be patentable or otherwise protected by law
- **"made"** when used in relation to any invention, means the conception or first actual reduction to practice of such invention

BARD Research Grants Guidelines and Regulations for Grant Management (Annex A)

- **"practical application"** means to manufacture in case of a composition or product, to practice in the case of process or method, or to operate in the case of a machine or system and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or government regulations, available to the public on reasonable terms

Approval of Research Authority

Upon completion of the report and its online submission of the PI, BARD will contact the appropriate research authority for approval of the report.

Confidentiality

BARD attempts to observe the strictest confidence in handling the research proposals, but cannot guarantee complete confidentiality on any matters that lie beyond its control. The confidentiality of recipient's "proprietary data" so designated, shall be strictly observed to the extent permitted by appropriate national law. There shall be no restriction on the publication of research results except when taking into consideration effects of prior publication on possible subsequent patent and BARD's license to use copyrighted material.

Patents

Recipient shall own, throughout the world, any invention made by its personnel or using its facilities arising out of research supported by BARD funding. Ownership of any invention made jointly by the personnel or using its facilities of two or more recipients shall be determined in a manner consistent with the degree of contribution of each recipient, through negotiation of the parties. Subject to written approval of BARD, ownership shall be transferable:

- ✓ among recipients provided that the purpose of such transfer is to promote utilization and/or commercialization of said inventions
- ✓ to the two governments in order to meet overriding obligations of recipients toward third party governmental co-sponsors of research also supported by BARD

The Governments of the United States and of Israel shall be entitled to and receive at least a non-exclusive, worldwide, royalty-free, irrevocable license to practice said invention for governmental purposes.

Recipient shall promptly submit, on a confidential basis, a written disclosure of each invention to BARD and shall submit a final listing of such inventions at the completion of a BARD funded project, including a certification that there are no unreported inventions.

Recipient shall file for a patent on said invention within nine months of first actual reduction to practice. The filing of such a patent application shall be promptly reported to BARD. The Governments of the United States and/or of Israel shall be assigned rights to any BARD funded invention in any country where recipient does not elect to file for a patent within the nine-month period.

Recipient shall use reasonable efforts to cause said invention to be brought to practical application in each country where recipient has obtained a patent within six years of the granting of such patent. The Executive Director of BARD may extend the above six year time limit for an additional period upon receiving reasonable justification from the recipient for such an extension. Otherwise, the Governments of the United States and/or Israel may require recipient, an assignee or exclusive licensee to grant a license to a responsible applicant or

BARD Research Grants Guidelines and Regulations for Grant Management (Annex A)

applicants upon terms reasonable under the circumstances, and if the recipient, assignee or exclusive licensee refuses such a request, the Governments have the right to grant such license(s) themselves.

Recipient shall use, to the greatest extent practicable, net profits from the use of said patent to support research and development activities.

Copyrights

The Governments of the United States and Israel shall be entitled to and receive non-exclusive, worldwide, royalty-free, irrevocable licenses to use all material resulting from BARD funded activities, and copyrighted by recipients of BARD grants. BARD shall be permitted to use any copyrighted material resulting from its funding activities when it is necessary to promote the maximum dissemination of research findings. BARD will also seek copyrights when necessary to achieve such a purpose, but only after consultation with recipients.

Follow-Up

BARD requests updates of all publications, patents and commercialization arising from the supported research and properly acknowledging BARD's support. Periodically, BARD evaluates completed projects regarding their contributions to agricultural science (qualitative and quantitative). This evaluation is important to BARD's on-going goal of increasing its research budget: a job made easier with convincing proof of the contributions of BARD supported projects - whether from the science itself, the benefit to agriculture, or from the active cooperation between the scientists involved. To this end, BARD will request relevant information from grant recipients.
